

Rishabh Jain

Portfolio: bizzxle.netlify.app

Github: github.com/rishabhbizzle

Email: rishabhbizzle@gmail.com

Mobile: +91-9643662949

Skills Summary

Languages / Frameworks: Python, JavaScript / TypeScript, React, NodeJS, Next.js, SQL, Tailwind, MUI

Applications: AWS, Docker, Nginx, PostgreSQL, MongoDB, Azure

Tools: Linux, Web, Windows, Git, GitHub, Curl, Supabase, AWS S3, Shadcn

Experience

Depo24

Feb 2023 – Present

Full Stack Developer

Full Time

- Developed and maintained a comprehensive e-commerce admin portal using **React.js, Node.js, MongoDB, AWS and PostgreSQL**, empowering administrators to manage products, orders, and inventory efficiently.
- Implemented **role-based access control (RBAC)** and integrated **analytics and reporting features** into the admin portal, providing administrators with real-time insights into sales, inventory, and customer behavior, facilitating data-driven decision-making, resulting in a **40%** increase in efficiency.
- Delivered a brand new Franchise POS (Point of Sale) system, facilitating streamlined order processing at franchise stores which significantly **increased the revenue**.
- Collaborated with cross-functional teams to develop and enhance order management capabilities, including order processing, shipment tracking, and customer communication, streamlining operations and improving customer satisfaction.

Includemy - Project Parvaah

Sept 2022 – Nov 2022

Full Stack Developer

Internship

- Worked on an Ed-Tech platform to help and support disabled people
- Collaborated on UI/UX design and development, resulting in **80%** improvement in user satisfaction
- Worked with various technologies such as **HTML/CSS, ReactJS and Django**

Projects

POS System | *React, Node.js, PostgreSQL, AWS, Tailwind, Shadcn UI* | [Link](#)

- Led** the development of a Franchise POS (Point of Sale) system for the company (Depo24), facilitating streamlined order processing at franchise stores.
- Implemented order creation functionality, **allowing products to be added via barcode scanning**, similar to major retail cashier systems which helps in **reducing processing time by 50%**
- Developed a **comprehensive dashboard** for daily sales, statistical insights, and payment tracking for credit sales, resulting in a **20% increase** in sales accuracy
- Developed transactions dashboard for order management, enabling further processing such as **item fulfillment, cash on delivery, returns, and invoice generation**.
- Integrated **JWT** token-based authentication, **enhancing security** protocols.

StatsForFans | *HTML, CSS, JavaScript, Django* | [Link](#)

- An interactive Spotify streaming stats web app which had **4,500+ visitors** and **32,000+ views**
- It features **real-time** most streamed artists and songs, **extensive streaming stats of most popular artists** on the app and more
- The data is collected by web scrapping using **Python** library and processing is done using **Pandas, NumPy**. For front-end **HTML** and **CSS** and **Javascript** is used and for back-end **Django** and **Azure** is used.

Education

University of Delhi

2020 - 2024

Bachelor of Commerce (Honours)

Delhi, India

Achievements

- * Among **Top 10 teams out of 100** in Error 404 hackathon organised by Micro.
- * **Contributed** to one of the fastest growing UI component library i.e **Shadcn UI**.
- * **2 Merged PRs** of features requested in **Palisadoes Foundation - Talawa** (GSOC Org.)
- * Solved **400+ problems** on Leetcode and Geeksforgeeks
