## Experience

Depo24 Feb 2023 – Present

Full Stack Developer

 $Full\ Time$ 

- Developed and maintained a comprehensive e-commerce admin portal using **React.js**, **Node.js**, **MongoDB**, **AWS** and **PostgreSQL**, empowering administrators to manage products, orders, and inventory efficiently
- Implemented role-based access control (RBAC) and integrated analytics and reporting features into the admin portal, providing administrators with real-time insights into sales, inventory, and customer behavior, facilitating data-driven decision-making.
- Collaborated with cross-functional teams to develop and enhance order management capabilities, including order
  processing, shipment tracking, and customer communication, streamlining operations and improving customer
  satisfaction.

# Includemy - Project Parvaah

 $\mathbf{Sept}\ \mathbf{2022} - \mathbf{Nov}\ \mathbf{2022}$ 

Full Stack Developer

Internship

- Worked on an Ed-Tech platform to help and support disabled people
- Collaborated with team members to ensure effective UI/UX design and development
- Worked with various technologies such as HTML/CSS, ReactJS and Django

### **Projects**

Franchise POS System | React, Node.js, PostgreSQL, AWS, Tailwind, Shadon UI | Link

- Led the development of a Franchise POS (Point of Sale) system for the company (Depo24), facilitating streamlined order processing at franchise stores.
- Implemented order creation functionality, allowing products to be added via barcode scanning, similar to major retail cashier systems.
- Developed a comprehensive dashboard for daily sales, statistical insights, and payment tracking for credit sales.
- Developed transactions dashboard for order management, enabling further processing such as **item fulfillment**, **cash on delivery**, **returns**, **and invoice generation**.
- Integrated a JWT token-based authentication system for secure access to the POS system.

StatsForFans | HTML, CSS, JavaScript, Django | Link

- An interactive Spotify streaming stats web app which already has 4,500+ users and 32,000+ views
- It features real-time most streamed artists and songs, extensive streaming stats of most popular artists on the app and more
- The data is collected by web scrapping using **Python** library and processing is done using **Pandas**, **NumPy**. For front-end **HTML** and **CSS** and **Javascript** is used and for back-end **Django and Azure** is used.

#### Education

# University of Delhi 2020 - 2024

Bachelor of Commerce (Honours)

Delhi, India

Govt. Sarvodaya Vidyalaya

2020

Class 12th Commerce (with Maths)

Delhi, India

#### Achievements

- \* Among Top 10 teams out of 100 in Error 404 hackathon organised by Micro.
- \* Contributed to one of the fastest growing UI component library i.e Shaden UI.
- \* Solved 400+ problems on Leetcode and Geeksforgeeks

#### **Profile Links**

- \* GitHub
- \* Portfolio Website
- \* Leetcode
- \* GeeksforGeeks

#### Technical Skills

Languages: Python, JavaScript

Technologies/Frameworks/Libraries: Next.js, React, Node.js, Tailwind, MongoDB, PostgreSQL, MUI, AWS
